People who remain awake in fear of injustice

Again, Iran and execution.

Hamburg , 23.01.2024, 01:50 Time

USPA NEWS - A brave young man named Mohammad Ghobadlo was arrested about 1 year and 3 months ago by IRGC terrorists. In the first few days of his detention, no one, not even his family, was aware of his whereabouts. Suddenly, in the insane wave of executions by Ali Khamenei's regime, he was executed for strange and baseless charges such as disrespecting religion, creating chaos, causing insecurity, and leading street protests.

One of them, a young and powerful man named Mohsen Shekari, was executed for religious reasons because he had renounced Islam.

The subsequent victims are so numerous that their names cannot be included in this article. Unfortunately, they were athletes and lovers of life, like Mohammad Mahdi Karami and many others.

Executions increased day by day, and innocent people in prisons were sentenced to death. For example, Mojahed Korkor, whose family explicitly stated that the person who fired the shot was from IRGC terrorist organization and took the life of their son, NOT Mojahed Korkor.

They repeatedly emphasized that Mojahed Korkor is innocent

And as well And Reza Rasaei Soon will be Execute

You have to believe that , Khamenei is Father of Terrorism

Unfortunately, suddenly on the night of January 22, 2024, news reached the people of Iran that it seems they intend to execute Mohammad Ghobadlo. According to all the evidence, Mohammad was innocent , and even after 1 year and 3 months, the criminal islamic government in Iran has been unable to prove that Mohammad was the murderer of those who sought freedom and peace in Iran. It's truly unclear whom they have executed.

Even more painful than this is the realization that the Khamenei regime has completely gone mad. Much like Khamenei himself, who knows nothing and has only learned how to execute young people involved in politics and advocating for freedom.

He has perfected this over the years! Khamenei has no knowledge of science, politics, or any form of government.

He has only learned how to kill the people of Iran efficiently.

ISIS must learn from Khamenei.

Khamenei is thirsty of young innocent Iranians Blood.

Mohammad Executed on 23.01.2024

A tragedy and a heartbreaking end for the life of a 24-year-old young man unfolded today. For me, for humanity, for all those who strive for peace and friendship, today is a sorrowful day, a dark day.

On January 22, 2024, Monday, when the news of the potential execution of Mohammad Gobadi reached the people in Iran, despite the brutal and inhumane repression by the regime of Khamenei, people inside Iran gathered again. Although they faced the imminent execution of Mohammad before dawn, this time no one could intervene. Mohammad was executed at 5 am.

The life of an innocent human being has come to an end.

How can the Iranian regime still be recognized internationally? Recognizing Khamenei and the Islamic Republic regime is exactly like recognizing ISIS.

Khamenei and the terrorists of the IRGC view committing crimes very casually. They have forgotten that all these innocent individuals who fall victim to their crimes are significant to the people of Iran and the world. They have forgotten that all these innocent individuals aspired to live and had the right to life. They have forgotten that the people of Iran are very angry, and at any moment, they could take to the streets again

I have many conversations with who are coming directly from Iran, and they only know that they cannot stand alone against this crazies Mullahs government. They are sure that if they go to protests again In the streets , they will be kill by Regime , The reason for the fear of the people of Iran is straightforward. They know that Ali Khamenei is a ruthless criminal who has only learned how to kill the people of Iran!

On January 20, 2024, a young girl and student in Brojerd, Iran, was killed for the sole reason of not wearing a headscarf! However, the Iranian police did not transfer her to a detention center but directly assassinated her in her private environment, along with her car, in a bizarre shower of bullets.

Did you know that the majority of families whose sons and daughters, like Mashallah Karami, Fateme Sepehri, Toomaj Salehi, and many other youths, were sentenced to execution are no longer among us?

Did you know that Mohammad Ghobadlo was never proven guilty!

And the reason for his death sentence remains unknown!!!!

Did you know they took young girls, sexually assaulted them, and killed them? Do you remember Nika Shakarami? She was only 16 years old.

Did you know that Mohammad's mother is currently in prison to witness the execution of her 24-year-old son?

This brutality and inhumanity demand international attention and condemnation.

Do you know what happened in Iran on 20.01.2024 !

Iranian government truly lies, and right now, Mohammad killed by the regime

Dear readers, I request you to dont let any one say any more Islamic Republic of Iran is Candidate of the people of Iran , Iranians are not like mullahs Iranians Love everyone and they want to have relationships sith all nationality like 1970 please ask from your Government to close and deport the embassies of Islamic republic of Iran, Please dont let any one from this Terrorism Organization of Islamic Republic of Iran , Diplomats come to your country please ask to from your government to stop to speaking with current Government of Iran , Please Stay in the right side of the history , And speak more about the murders of Ali Khamenei.

Mohammad was working, supporting his parents. His mother made a heartfelt plea to Khamenei in a video last night, begging them not to execute Mohammad. Unfortunately, with great sorrow and disbelief, Mohammad was executed this morning and buried three hours later. Imagine, just yesterday, at this same hour, he was living without any physical illness or life-threatening problems, but he knew that today he wouldn't survive.

This is one of the smallest yet most heart-wrenching crimes of the Islamic Republic of Iran and Ali Khamenei.
